

TIP: Leave the booklet open to this page as you will use these skills frequently!

BOUND IN BLOOD

Innate

When you strike the same foe for the second time in a turn, you may activate a **Pact** and **bind** it to that foe. That **Pact** remains active until you activate a different **Pact** in this way.

TIP: This is your **Innate** skill. That means its always active. In tandem with the **Pacts** shown below, it's a vital part of the Bloodthane's skill-set.

SAVAGERY PACT

Pact

When you activate Savagery Pact, your Pact-bound foe loses 2 health.

Active: Your strikes deal 1 bonus damage.

VAMPIRIC PACT

Pact

When you activate Vampiric Pact, you inflict **Weaken 1** on your Pact-bound foe.

Active: Whenever you strike a foe, heal yourself for 1 health

PREDATION PACT

Pact

When you activate Predation Pact, inflict **Cripple 1** on your Pact-bound foe.

Active: Your Speed is increased by 2.

BLADE FURY

Basic • Attack • Melee

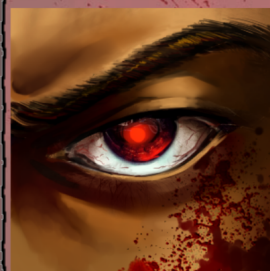

Strike target foe for 4 damage. Once per turn when you end a move action in a square adjacent to a foe, you may play **Blade Fury** as a **free** action.

TIP: This is your **Basic** skill. It's a lot weaker than most of your other skills, but it never needs to recharge.

BLOODLUST

Ultimate • Self

Free (This doesn't cost an action.)

Choose a foe. This turn, whenever you strike that foe, you strike that foe again for the same amount of damage. In addition, you gain the **Active** benefits from your inactive pacts this turn.

TIP: This is your **Ultimate** skill. It can be used at any time, but only once per encounter. Choose the timing carefully to maximize its impact.

VIOLENT TRANSFUSION

Recovery
• Melee

Target foe loses 4 health. You gain 2 health for every health you've caused that foe to lose this turn. You may play Violent Transfusion for **free** if you just activated a Pact.

TIP: This is your **Recovery** skill. It can restore a lot of health, but only two total Recovery abilities can be used by your entire group in each encounter.

Quick Rules Primer:

Actions

- You get 3 actions per turn. They can be used as **Skill**, **Move** or **Focus** actions. You can't use the same type of action more than twice per turn.
- **Skill Action:** Use any skill.
- **Move Action:** Move your speed, or use a skill with the **Maneuver** keyword.
- **Focus Action:** Recharge a skill or draw a  card.

Cards

- Draw one at the start of each turn.
- **Weaving:** You may discard a  card to add its power value to any individual strike, heal or shield.
- **Heroic:** You may discard two  cards that match the symbols on a standard skill card to use the Heroic version of that skill instead.

Movement

- Normal movement is blocked by walls, pillars and enemy units. Shifting allows you to move through enemy units.
- Moving or shifting into a rough terrain square costs 2 squares of movement.

STATISTICS

Health: 40
Actions: 3
