

TIP: Leave the booklet open to this page as you will use these skills frequently!

RISING HEAT

Innate

Whenever you use a skill, you gain 1 Heat for each skill you've used this turn (max gain: 3).

TIP: This is your **Innate** skill. That means it's always active. In tandem with the **Ignite** keyword detailed below, it's a vital part of the Kindleborne's skill-set.

DISSIPATION

Innate

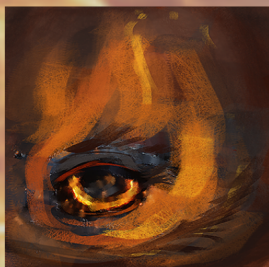

At end of turn, if you have more than 5 heat, consume half of your heat and gain that much health.

IGNITE

Keyword

You may consume Heat equal to a skill's **Ignite** cost to play that skill without spending an action. Skills played this way do not generate Heat.

TIP: The first skill you play in a turn generates 1 Heat. The second generates 2 and every subsequent skill played that turn generates 3. Heat can be used to Ignite skills (play them for free) or saved to gain Health via **Dissipation**. When you Ignite a skill, it doesn't generate Heat itself but it still counts as a skill played, increasing Heat generation for subsequent skills that turn.

TINDERBOLT

Basic • Attack • Range 4

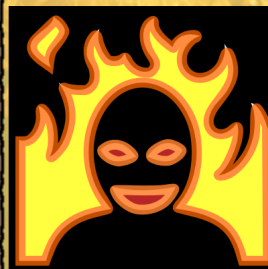

Ignite 5 (Consume 5 Heat to play this skill for free). Strike target foe for 4 damage plus 1 bonus damage for each attack skill you've used this turn.

TIP: This is your **Basic** skill. It's a lot weaker than most of your other skills, but it never needs to recharge.

PYROMANIA

Ultimate • Self

Free (This doesn't cost an action.)

This turn, the cost to Ignite skills is reduced by 1 and each time you generate Heat, you generate 1 additional heat.

TIP: This is your **Ultimate** skill. It can be used at any time, but only once per encounter. Choose the timing carefully to maximize its impact.

CAUTERIZING BRAND

Recovery • Self

Strike yourself for up to 4 damage. At end of turn, heal yourself for four times that much health.

TIP: This is your **Recovery** skill. It can restore a lot of health, but only two total Recovery abilities can be used by your entire group in each encounter.

Quick Rules Primer:

Actions

- You get 3 actions per turn. They can be used as **Skill**, **Move** or **Focus** actions. You can't use the same type of action more than twice per turn.
- **Skill Action:** Use any skill.
- **Move Action:** Move your speed, or use a skill with the **Maneuver** keyword.
- **Focus Action:** Recharge a skill or draw a  card.

Cards

- Draw one at the start of each turn.
- **Weaving:** You may discard a  card to add its power value to any individual strike, heal or shield.
- **Heroic:** You may discard two  cards that match the symbols on a standard skill card to use the Heroic version of that skill instead.

Movement

- Normal movement is blocked by walls, pillars and enemy units. Shifting allows you to move through enemy units.
- Moving or shifting into a rough terrain square costs 2 squares of movement.

STATISTICS

Health: 40
Actions: 3
Speed: 3
