

TIP: Leave the booklet open to this page as you will use these skills frequently!

ILLUSIVE SHADOWS

Innate

Whenever you shift out of a square, you may place a **Shadow** mark on that square. Shadows fade at end of turn.

As a free action, you may consume a **Shadow** to teleport to its square.

TIP: This is your **Innate** skill. That means it's always active. In tandem with the **Shadowstrike** keyword detailed below, it's a vital part of the Traceless' skill-set.

PROBABILITY ARMOR

Innate

For each Shadow mark on the battlefield, your Armor is increased by 1.

SHADOWSTRIKE

Keyword

When you play a skill with **Shadowstrike**, each of your Shadows copy the strike, dealing half damage.

TIP: Mastering the use of Shadows is key to playing the Traceless well. You can always create Shadows easily with Displacer Strike, but other skills can do it too. Set up one or two Shadows before using Gloom Edge for big damage.

DISPLACER STRIKE

Basic • Attack
• Melee

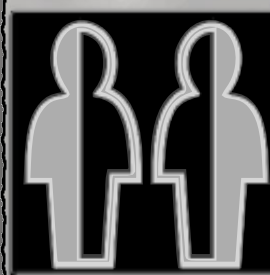

Shift 2 squares. Before or after the shift, strike target foe for 4 damage.
Shadowstrike (Each of your Shadows copy this strike, dealing half the damage).

TIP: This is your **Basic** skill. It's a lot weaker than most of your other skills, but it never needs to recharge.

SIMULACRUM

Ultimate • Self

Free (This doesn't cost an action.)

A Shadow in an unoccupied square becomes a **Simulacrum** minion under your control.

TIP: This is your **Ultimate** skill. It can be used at any time, but only once per encounter. Choose the timing carefully to maximize its impact.

TIP: This is your **Recovery** skill. It can restore a lot of health, but only two total Recovery abilities can be used by your entire group in each encounter.

PERFECT DECOY

Recovery • Self

Free, Reactive

If a strike would bring you below 1 health this turn, you may consume a Shadow and teleport to its square. If you do, prevent the strike's damage and heal yourself for 16 health.

Quick Rules Primer:

Actions

- You get 3 actions per turn. They can be used as **Skill**, **Move** or **Focus** actions. You can't use the same type of action more than twice per turn.
- Skill Action:** Use any skill.
- Move Action:** Move your speed, or use a skill with the **Maneuver** keyword.
- Focus Action:** Recharge a skill or draw a card.

Cards

- Draw one at the start of each turn.
- Weaving:** You may discard a card to add its power value to any individual strike, heal or shield.
- Heroic:** You may discard two cards that match the symbols on a standard skill card to use the Heroic version of that skill instead.

Movement

- Normal movement is blocked by walls, pillars and enemy units. Shifting allows you to move through enemy units.
- Moving or shifting into a rough terrain square costs 2 squares of movement.
