

TIP: Leave the booklet open to this page as you will use these skills frequently!

MODULAR TECHNOLOGY Innate

At start of turn, put 1 Energy mark on one of your **Mods**. As a **free reactive** action, you may consume an Energy mark to **Overload** a mod. You gain double the maximum active bonus of that mod until end of turn.

TIP: This is your **Innate** skill. That means its always active. In tandem with the **Mods** detailed below, it's a vital part of the Techsage's skill-set.

ADAPTIVE TARGETING Mod

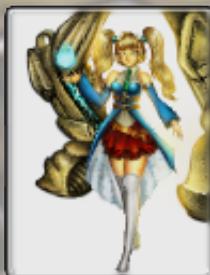

Active: Your strikes against foe's you've already struck this turn deal 3 bonus damage.

REFLEX PLATING Mod

Active: Your armor is increased by 2.

BALLISTIC SHAPER Mod

Active: The ranges of your skills and effects are increased by 2.

TASERPROD Basic • Attack • Range 4

Strike target foe for 4 damage, plus 1 bonus damage for each different mod that has an Energy mark on it.

TIP: This is your **Basic** skill. It's a lot weaker than most of your other skills, but it never needs to recharge.

RAPID REBOOT

Ultimate • Self

Free (This doesn't cost an action). Start your turn over. (Refresh your actions for this turn. Recharge all of your skills. Draw a  card and put 1 energy on a mod.)

TIP: This is your **Ultimate** skill. It can be used at any time, but only once per encounter. Choose the timing carefully to maximize its impact.

BIOGEN MIST

Recovery • Burst 2

Heal each Incarnate in the burst for 4 health plus 12 health divided evenly between all affected units.

TIP: This is your **Recovery** skill. It can restore a lot of health, but only two total Recovery abilities can be used by your entire group in each encounter.

Quick Rules Primer:

Actions

- You get 3 actions per turn. They can be used as **Skill**, **Move** or **Focus** actions. You can't use the same type of action more than twice per turn.
- **Skill Action:** Use any skill.
- **Move Action:** Move your speed, or use a skill with the **Maneuver** keyword.
- **Focus Action:** Recharge a skill or draw a  card.

Cards

- Draw one at the start of each turn.
- **Weaving:** You may discard a  card to add its power value to any individual strike, heal or shield.
- **Heroic:** You may discard two  cards that match the symbols on a standard skill card to use the Heroic version of that skill instead.

Movement

- Normal movement is blocked by walls, pillars and enemy units. Shifting allows you to move through enemy units.
- Moving or shifting into a rough terrain square costs 2 squares of movement.
